ESG

The company consolidates its presence in majors markets with sustaintable practices. The practices include traceability, food safety, animal welfare, environmental management, social responsibility, governance and continuous improvement in all our processes.

Traceability

The traceability process aims to guarantee **ESG premises** and is an important tool in controlling the beef production stages, being able to verify every step from animal supply to the final product.

Focusing on ensuring compliance with the socioenvironmental aspects of rural producers, the company uses technologies to guarantee legal requirements relating to environmental management, illegal deforestation, human rights, slave and child labor practices, among others, through geomonitoring and verification of documents that guarantee the protocols.

100% of direct suppliers

are in social and environmental compliance.

Animal Welfare

We believe that a product can only be good when animal welfare is respected. Our suppliers are guided and monitored to ensure that all animals are handled and transported according to AWF best practices. Also taking care of the whole chain in order to obtain products that attend the international standard models of safety. Our good practices are recognized with international certifications as **PAACO** and **Certified Humane**.

Food Safety

Our priority is the safety of the food we produce. The production is fully monitored by quality control department, following the best production practices, according to **HAACP and BRCS protocols with grade AA+**. The company also respects diversity, and is eligible to produce attending to **Halal** standards. The company also has a laboratory certified by **INMETRO** to regulate and test the food products.

Productive capacity:
1.200 animals/day

Ensaios ABNT NBR
ISO/IEC 17025:2017

CRL 1848

Environment

The environmental management is among the top priorities of Barra Mansa Food's Policy. We process more than 100 tons of bovine byproducts every day, which are transformed into raw materials for many different industries, such as pet food, pet treats, cosmetics and others.

All the water used in our production is treated and returned to the environment in a safe way. For all this work the company is recognized and awarded with **ISO 14001**, **Euciclo Certification** e **Green Label**.

Focus on excellence

Focused on ensuring the excellence of its products and services, Barra Mansa Foods is supported by dedicated team of over 1.400 collaborators. The company is constantly investing on the latest technology in equipment, structure, quality control procedures and following the strictest sanitary practices.
